

Never Easy

Art of Dying

All this chaos
All this violence
I've never felt so broken
What's the status
Why the silence
Could it be more hopeless

Why does it feel like the only choice isn't what I need
Tell me what's the point
It's never easy
So I close my eyes just to see your face
If I could hear your voice
It would be easy
Easy

Broken bottles
Empty boxes
Just like all of your promises
I've taken every medication
But none of it kills the dissonance

Why does it feel like the only choice isn't what I need
Tell me what's the point
It's never easy
So I close my eyes just to see your face
If I could hear your voice
It would be easy

Tell me it'll be okay
Tell me I can still be saved
Tell me it'll be okay
When I call your name

Why does it feel like the only choice isn't what I need
Tell me what's the point
It's never easy
So I close my eyes just to see your face
If I could hear your voice
It would be easy
Easy

It's never easy
It's never easy
It's never easy
