

DANCE

Art vs. Science

[Verse 1]

See me from a distance
I can feel you watching
There's a little part of you
Playing with the light

Hear the sound of water
Pulling you towards me
Down a dappled avenue
Splashing light all over the place

[Pre-Chorus]

Ooh, it's okay
If you feel you want to, want to, want to

[Chorus]

Dance, it's free
Anytime, you feel you want to
Dance, it's free
Anytime, you feel you want to
Dance, it's free
Anytime, you feel you got to
Dance, it's free
Anytime, anytime

[Verse 2]

Calling from the distance
Under the horizon
Still a little part of you
Playing with the light

Look into a memory
Shadow of the first time
Something's always telling you
But your mind's all over the place

[Pre-Chorus]

No escape
But if you feel you want to, want to, want to

[Chorus]

Dance, it's free
Anytime, you feel you want to
Dance, it's free
Anytime, you feel you want to
Dance, it's free
Anytime, you feel you got to
Dance, it's free
Anytime, anytime, anytime, anytime, anytime

Anytime, you need
Or you want, or you feel you got to
Dance, it's free
Anytime, ooh you feel you want to
Dance, it's free
Anytime, you feel you got to
Dance, it's free
Anytime, anytime

Anytime, you need
Or you want, or you feel you got to
Dance, it's free
Anytime, ooh you feel you want to
Dance, it's free
Anytime, you feel you got to
Dance, it's free
Anytime, anytime, anytime
