Put back the car seat

Put back the car seat babe it's a 4 by 4

Let's check out the new suspension

Got top on the mway

No way I'm vex if I miss this exit

If she can hold me down then cool

Ok I'll pop her the question

So leng I'd give her my pension

Am I ok ok ok

Catch me in a wifebeater outside of the shop with a zoot in my ear

I need 5 more bags in my bank to cover my weed expense for the year

I lost friends to addiction miss them dearly fuck man I wish they were here

There's no love lost no shedding no tears cause bro told me that this is the year

And I once had a girl but she weren't the one she don't understand my lifestyle

Woke up from a dream that told me if you don't listen then you're gonna find out

I've read so many scriptures and fucked bitches and now I need a timeout

Got so many problems it's all nonsense and now I'm gonna slide out

Put back the car seat babe it's a 4 by 4
