

## Buss It Down

ARTAN

I'm starry but they're calling me a star bro  
I wear Giuseppe shoulda really fixed my car though  
She keeps on saying don't be an asshole  
But I head that nice guys finish last though

I just wanna buss it down  
I need a roley then I'll buss it down  
She want to phone me but I'm not around  
She makes me wanna go and buss it down  
But I can't buss it now-no

If I lose this job I'm turning to a trap phone  
I send my CV but nobody's getting back though  
My uni had me thinking bout my stack so  
All I had to do was grow a backbone

I just wanna do what I want  
Do whatever I please  
But I'm still working my job  
Cause yes I still need them P's  
You know I've been through a lot  
I'm still chasing the cheese  
I spray that pakaraban  
I need a million please-so

I need it glistening so much I couldn't care about the right time  
I need some diamonds so that I can see myself that there's a right time

I'm starry but they're calling me a star bro  
I wear Giuseppe shoulda really fixed my car though  
She keeps on saying don't be an asshole  
But I heard that nice guys finish last though

I just wanna buss it down  
I need a roley then I'll buss it down  
She want to phone me but I'm not around  
She makes me wanna go and buss it down  
But I can't buss it now-no

My brother how you been I didn't ask you  
All I know is you make a living off of fast food  
All this time is flying past you  
Looking like your line is gonna last you  
I just want to see you do well  
Hope your family's blessed  
I know you been through a lot  
Somehow you handle the stress  
You know wherever I'll be  
Always wish you the best  
But right now I'm in the sheets  
And she's about to undress-so

I need it glistening so much I couldn't care about the right time  
I need some diamonds so that I can see myself that there's a right time

I'm starry but they're calling me a star bro  
I wear Giuseppe shoulda really fixed my car though

She keeps on saying don't be an asshole  
But I heard that nice guys finish last though

I just wanna buss it down  
I need a roley then I'll buss it down  
She want to phone me but I'm not around  
She makes me wanna go and buss it down  
But I can't buss it now-no
