

## Doubt It

ARTAN

I'm tryna get to a point where I cannot count it  
To get a milli' you've gotta start with a thousand  
Been through some shit, there was no way to walk around it  
You say you've been through the wars but brudda I doubt it  
Yeah I doubt it, yeah I doubt it  
If something's holding you back then brudda allow it  
We're tryna get out the flats and out to them houses  
We're just a product of everything we're surrounded

I know these clouds have got a silver lining  
We try to see it but the sun's so blinding  
No four-leaf clovers on the roads we're finding  
So all these potions what we've got confined in  
I'm mixing up the Henny, probably texting a jezzie  
Got no intention of linking, she cannot think she can get me  
She's trying hard to forget me, sees me up on the telly  
She knows I'ma be a star but the Reaper might come and get me  
Man I guess I've got the vision, breaking out of the system  
I've done some things back in the day that I really just wish I didn't  
I really wish I had listened, chain, I want it to glisten  
But karma has come around and these bumpy roads I have ridden  
Man I'm trying so hard, I'm trying so hard to survive  
And they can say what they all want but I've gotta see it with my own eyes

I'm tryna get to a point where I cannot count it  
To get a milli' you've gotta start with a thousand  
Been through some shit, there was no way to walk around it  
You say you've been through the wars but brudda I doubt it  
Yeah I doubt it, yeah I doubt it  
If something's holding you back then brudda allow it  
We're tryna get out the flats and out to them houses  
We're just a product of everything we're surrounded

I'm a product of my past but look into the future  
Many questions that I've asked and there's no one I got through to  
Sick and tired of being last, everybody wants too boo ya  
I'm just sticking to the graft, didn't learn that from the tutor  
But I'm, I'm trying, brudda I'm trying  
Keep on taking notes but all these fuckers keep lying  
Keep lying, why they keep lying?  
Tryna do my best but all I'm doing's surviving  
Still I don't dwell on the past  
I've been sticking to my morals, they're still switching up their stars  
I've been doing bits for P, just me and all my team  
My Spotify will blow them up, they're swimming up the streams  
The winter's coming but you cannot save yourself all from the rainstorm, rainstorm  
They don't like calm weather, they know that when it comes it's what they pay for, they pay for

I'm tryna get to a point where I cannot count it  
To get a milli' you've gotta start with a thousand  
Been through some shit, there was no way to walk around it  
You say you've been through the wars but brudda I doubt it  
Yeah I doubt it, yeah I doubt it  
If something's holding you back then brudda allow it  
We're tryna get out the flats and out to them houses

We're just a product of everything we're surrounded
