

# Dynamite

ARTAN

How am I suppose to really go approach this?  
Gotta' show the universe just really who the goat is  
Dreaming manifest while working on my craft  
I confess I struggled lots, but I would rather take the chance  
Realised that I was living but forgot the reason  
Never acting, take a leap of faith  
I was lost in dreaming  
From a broken home, my pals the same  
Role a zoobie just to mask the pain  
You wanna hear my story, ask away  
Late nights overthinking, same time over drinking  
I got a couple things I really wanna' share with you  
Like if this all can turn around it ain't a miracle  
In couple years, I will 10x on my residual  
Different world, got a different plan  
Girl if your man isn't me, you need a different man  
I'll break bread with my bros, gotta' win with the gang  
Gotta' switch up my mind, and get back to the plan

Cause I can fly, Oh I can fly just anywhere  
Cause I grow wings when I feel fire inside  
I think I found my dynamite

So I can try, oh I can try  
Its worth the risk and now I think I found my dynamite  
I think I found my dynamite

I think I've found that fire in my belly  
Out here juggin, can't be sitting watching telly  
Nowadays I'm trying to live my dreams  
Can you picture me on the podium  
With 20 chains I'll look like Mr. T  
Lost in time forever, I think I skipped my teens  
All I need is money and some rizla please (rizla please)  
This world is your perception shape it how you wanna'  
Leave a special mark out here, one day you'll be a goner  
Oh, I'm sick of feeling like this  
We're all alive but we don't live our lives  
You got some big dreams baby  
You should sweat it out and work on it  
You could change your situation  
Don't lose hope and learn to quit  
Cause I've been flying, yeah  
I'm from the dirt but I'm a diamond  
I'm out here on my own, I'm really trying to breathe  
I just wanna grow, and I just wanna live

Cause I can fly, Oh I can fly just anywhere  
Cause I grow wings when I feel fire inside  
I think I found my dynamite

So I can try, oh I can try  
Its worth the risk and now I think I found my dynamite  
I think I found my dynamite
