

Falling

ARTAN

By myself tonight
Buss the light

We're barking zoobies in the late night
I wanna kick back and take flight
But right now I better take time
I'm putting weight upon my waistline (Oh)
Getting kinda bigger now
All these things I gotta figure out
And I'm so lost, not again
I've forgotten again what I should do tomorrow
I'm smoking this loud and my head's feeling hollow
Feel I'm broken again
Need to figure this out and this chance I can't bottle
Wishing tonight and I'm piffin' tonight
Path is not easy, I slip and I slide
And I'm hurting inside (Hurting inside)

And I'm falling, I'm falling
Not balling, still all in
This life's all swings and roundabouts
So if they talk I'll drown 'em out
It's calling, it's calling
You're all in, you're all in
I'll make it there, you never know
Just please pick up your telephone
Ooh
Baby come on through
I wonder what to do
I just wanna make my move
But I don't really know I'm just smokin' on this zoot
Wonder what to do
What I do

Not just getting high, I'm here elevating
You think you know me from my reputation
They barely know me and they said I'm changing
Forever hustling and forever blazing
I see the stars and the money trees
Keep waking up from all these fuzzy dreams
Come watch my life and you'll see funny scenes
I'm just a man with anybody dreams
Tracksuit man-bag and I'm out of here
Ain't nobody doubting here
I never have a snout with beer
Feel I've never took a day off
You take an L, I take lots
Just watch this turn to straight prof
I'm next to blow, just wait, watch
I smoke a zoobie to the face
And now I'm feeling out of place
Picking up the pace
But I'm feeling

And I'm falling, I'm falling
Not balling, still all in
This life's all swings and roundabouts

So if they talk I'll drown 'em out
It's calling, it's calling
You're all in, you're all in
I'll make it there, you never know
Just please pick up your telephone
Ooh
Baby come on through
I wonder what to do
I just wanna make my move
But I don't really know I'm just smokin' on this zoot
Wonder what to do
What I do
