

Mission

ARTAN

I get lonely
So I hate it when my brothers don't phone me
I wanna stack so I can cop myself a Roley
Ain't no [?] in my Stoney
I've been out here doing music since '03
If you're living in the ends, you should know me
Being Ginuwine so you can call this pony
If I helped you out then brudda you don't owe me

I wanna spend less money, more time
I wanna mend this bar, my life
Got a couple friends, big part of my life
Getting out the ends, we're ahead of our time
Feeling pretty lean like, yeah I'm alright
Looking at the scene like 'yeah I might try'
Every day I'm thinking like 'yeah I might die'
Tryna bring the heat like, yeah I fight fire
Start thinking 'bout myself just a little bit
Yeah I might pour a drink, just a little bit
I've been out here getting lean since a little kid
All my team are tryna stack and just sit on it
I ain't jumping on your tune unless I'm feeling it
I've been down in the dumps, yeah I've been in it
Once I'm back from my shift then I'm billing it
'Cause I only like coke with vanilla in, coke with vanilla in

Now I'm thinking 'bout myself, yeah I'm thinking 'bout myself for a minute (
Thinking 'bout myself)
I wanna fly around the world, wanna fly around the world with some figures (
Wanna fly around the world)
I ain't really had a girl, I ain't really had a girl in a minute (No girl)
So it's just me and myself, it's just me and myself on a mission (Yeah I'm o
n a fucking mission)
I said I'm out here on a mission (Yeah, yeah)
I said I'm out here on a mission, man I'm on a fucking mission (Yeah, yeah)
It's 'cause I'm out here full commission
I said I'm out here full commission
People never saw my vision
Really wish that they'd have listened, I said I really wish they listened (O
h, I wish that they'd listened)
There's no room in for a bring in
I said there's no one for a bring in
'Cause back in day, what did you bring in?

I don't casually drink, it's 'cause of Asian glow
So the mandem know
That when I'm wrapping these spliffs, you know I'm putting in loads
Might see me at shows (Where's that?)
Like 'Who the fuck is this chink?' (Who's that?)
Money don't look broke
How the fuck do I cope?
Without backing these drinks, so now it's back to the roads
You don't think that I'm wavy
'Cause I sold my Mercedes
Not great I did saving
Wouldn't think that I'm Asian
I just get too complacent

After this payslip, smart and graft are adjacent
All my family hate bailiffs
I hope that I make it
All the mandem are waiting
I just tell them 'Be patient'
Oh

Now I'm thinking 'bout myself, yeah I'm thinking 'bout myself for a minute (Thinking 'bout myself)
I wanna fly around the world, wanna fly around the world with some figures
I ain't really had a girl, I ain't really had a girl in a minute (No girl)
So it's just me and myself, it's just me and myself on a mission (Yeah I'm on a fucking mission)
I said I'm out here on a mission (Yeah I am)
I said I'm out here on a mission, man I'm on a fucking mission (Fucking mission)
It's 'cause I'm out here full commission (Swear down)
I said I'm out here full commission
People never saw my vision (No, no)
Really wish that they'd have listened (No, no)
I said I really wish they listened
There's no room in for a bring in (No)
I said there's no one for a bring in (No)
'Cause back in day, what did you bring in? (No)

It's just me and myself, it's just me and myself on a mission (Yeah I'm on a fucking mission)
I wanna fly around the world, wanna fly around the world with some figures (Fly, fly, fly)
I ain't really had a girl, I ain't really had a girl in a minute
So it's just me and myself, it's just me and myself on a mission (No)
