

# Rain

ARTAN

Cause I don't understand why they're tryna do me wrong  
And I was thinking other plans, I should've done this all along  
I'm tryna learn to dance in the rain  
I can't let this all hurt me again  
Still think the grass is greener  
You wanna breathe but I can't either  
I'm tryna learn to dance in the rain  
I can't let this all hurt me again  
Still think the grass is greener  
You wanna breathe but I can't either  
I'm tryna learn to dance in the rain  
I can't let this all hurt me again (again)  
You wanna breathe but I can't either, no

I can't think too straight  
I've been getting too stressed cause of how life's changing  
Every time when I look to the sky  
I just wanna feel good so I keep on blazing  
I wanna smoke Forty-One all day  
Tryna get paid in every way  
And everybody notices the grind  
But really I'm just trying hard to just stay alive  
While I'm getting dough  
Please do not disturb me or my telephone  
I've been looking in the mirror, saying I'm next to blow  
I've got dreams that you wouldn't even get my bro  
If you fail you can always go a second time  
Bro called from the cell, said "You're next to shine"  
It's all about timing, one day you're gonna be shining

Cause I don't understand why they're tryna do me wrong  
And I was thinking other plans, I should've done this all along  
I'm tryna learn to dance in the rain  
I can't let this all hurt me again  
Still think the grass is greener  
You wanna breathe but I can't either  
I'm tryna learn to dance in the rain  
I can't let this all hurt me again  
Still think the grass is greener  
You wanna breathe but I can't either  
I'm tryna learn to dance in the rain  
I can't let this all hurt me again (again)  
You wanna breathe but I can't either, no
