

Rapunzel

ARTAN

She looks so good, I'm texting her twice
See the look in her eyes
Spin round the block and I'll show you the sights
She's looking so elegant
I drip drip, that's evident
And I fuck with your vibe
Hop in my whip and let's put it in drive
Step on the gas, smoking on gas
Look at her uhh, just look in her eyes
My head aches when she goes
You make time go slow
Need more rain so it grows
You got me on hold
My head aches when she goes
You make time go slow
Need more rain so it grows
You got me on hold

I never believed in fairy tales, I'm tugging Rapunzel's hair
She out in public, the mandem stare
They flexing, she don't care
Back seat, back in the baby
She on my line like daily, hate me
Tracksuit rocking like JD
Comfy out with my lady, bakey
I'm lazy when I do work I hate
Like shopping or making food
I'll order a meal and I'll pay for you
And I'll get a hotel if your mates come through
Moved outta the hood, making moves
No wonder my ex don't rate my tunes
My queen looks pretty in pink
But she looks way better in birthday suits

I'm texting her twice
See the look in her eyes
Spin round the block and I'll show you the sights
She's looking so elegant
I drip drip, that's evident
And I fuck with your vibe
Hop in my whip and let's put it in drive
Step on the gas, smoking on gas
Look at her uhh, just look in her eyes
My head aches when she goes
You make time go slow
Need more rain so it grows
You got me on hold
My head aches when she goes
You make time go slow
Need more rain so it grows
You got me on hold

Used to buy laces so it would match my tee
Nowadays I'm good and my stack's on fleek
Last year I would spend racks on weed
But I gotta save up for my tax, it's peak
She told me her mum's from Sweden

And her dad's from Spain and Mozambique too
Steps in her heels so elegantly
Then rides on my uhh so effortlessly
Keep betting on me, put seven on me
I can't stop till it's double I see
No IG, this is real life we
Making it work, don't post I be
Solo, kick on my Jojo leave
If you're not here for my peace, leave
She said she wanna get knees deep
Don't think she's ready but we'll see

I'm texting her twice
See the look in her eyes
Spin round the block and I'll show you the sights
She's looking so elegant
I drip drip, that's evident
And I fuck with your vibe
Hop in my whip and let's put it in drive
Step on the gas, smoking on gas
Look at her uhh, just look in her eyes
My head aches when she goes
You make time go slow
Need more rain so it grows
You got me on hold
My head aches when she goes
You make time go slow
Need more rain so it grows
You got me on hold
