

Think About It

ARTAN

I know
I'm taking L's it's nothing new to me
I'm spending time so I can spend on jewellery
I know that they all chuckin food at me
But what's the most that they can do for me

I'm just rolling out tonight cause I just can't help this feeling
I wish I had another excuse but I just can't find a reason
I'm putting down my telephone
Cause Mary's tasting so much better old
She's got me feeling like I'm better though
Bunning know I said I won't
I'm staring out like there's a telescope
I'm staring out like there's a telescope

I'm just rolling up outside cause I just can't hide emotion
I'm showing how I feel inside so I hope I don't down this potion
But I know
I'm not innocent or perfect
We're just [?] in this city it's our nature to be nurtured
We all want to find our things so we can look fine on the surface
We're all searching for our status cause we've never found our purpose-no

Can someone have my salary please
I'm a rat in this reality just chasing the cheese
How else will she end up on her knees
I got a bunch of other issues but can't tell you the deets
Just think about it
I'm making money but I need a hundred-thousand
I want to do it but they always make me doubt it
The blue light flashing in the mirror so we bouncing
Here we go
Here we go

Just think about it
I'm making money but I need a hundred-thousand
I want to do it but they always make me doubt it
The blue light flashing in the mirror so we bouncing
Here we go
Here we go

I'm just rolling out tonight cause I just can't hide emotion
I'm showing how I feel inside so I hope I don't down this potion
Just think about it
I'm making money but I need a hundred-thousand
I want to do it but they always make me doubt it
The blue light flashing in the mirror so we bouncing
Here we go
Here we go
Just think about it
I'm making money but I need a hundred-thousand
I want to do it but they always make me doubt it
The blue light flashing in the mirror so we bouncing
Here we go
Here we go

Here we go

Here we go

Here we go
Here we go

Here we go
Here we go

But I know
