

baby give me more

Artemas

Take me out tonight
Emily, you rule my mind
Release your sweet divine
And if you are not religious
I want you to euthanize me

Baby, give me more
Baby, give me more
If your heart is in your hips
Baby, give me more

I would give myself
For running out of time
I should've made you mine
I believe in myself
Only you can touch me right
You don't even have to try

If you're underneath the norm, I don't really care
Stroke your body from the floor, biting on your lips
What a feeling to be missed, only happened once
So your heart was in your hips, baby, give me more

Baby, give me more
Baby, give me more
If your heart is in your hips
Baby, give me more
Baby, give me more
Baby, give me more
If your heart is in your hips
Baby, give me more

You wanna know like my actual fantasy, like the real one?

Take me out tonight
Emily, you rule my mind
Release your sweet divine
And if you are not religious
I want you to euthanize me

I want you on top of my face
You're the death of me, never fucking [?] death of me
Because you got to run my face
Now I'm tripping, baby, I we fucking it living, babe
I barely recognize myself anymore, anymore
Why won't you take your drugs anymore, anymore?

If you're underneath the norm, I don't really care
Stroke your body from the floor, biting on your lips
What a feeling to be missed, only happened once
So your heart was in your hips, baby, give me more

Baby, baby, give me more
Baby, give me more
If your heart is in your hips
Baby, give me more
Baby, give me more

Baby, give me more
If your heart is in your hips
Baby, give me more

Baby, give me more
Baby, give me more
If your heart is in your hips
Baby, give me more (LOVERCORE)
