Artemas

You don't have to ask, babe, I want you  
All-night long. I don't need to trust an enemy  
So fuck me like we're enemies

You don't have to ask, babe, I want you  
All-night long. I don't need to trust an enemy  
So fuck me like we're enemies

I'm ready for war  
No, I'm not tryna be your friend  
So come here, mi amor  
Can we do this again?

I know you hate to be ignored  
I love just fucking with your head  
I know you hate me. That's allowed  
It doesn't stop us turning up right now

You don't have to ask, babe, I want you  
All-night long. I don't need to trust an enemy  
So fuck me like we're enemies  
You don't have to ask, babe, I want you  
All-night long. I don't need to trust an enemy  
So fuck me like we're enemies

And when it's all said and done (all said and done)  
When I said I was numb, it's because I am numb  
I got smoke in my lungs  
And you like it rough

You don't have (all said and done)  
No, you don't have to (said I was numb)
