

High 4 U

Artemas

Look me in the face
You know I like that shit
Won't you light the way?
Swear I can't see nothing
It's hard to be afraid when I got you inside my home
Woah, yeah

Oh I've been so distant, call the coastline
I was lost with nobody giving good vibes
You know I never tried to hurt you with the punchline
Lost in the city of angels

You know I love it when you stick around
But I don't wanna have to break your heart slowly
You know I love it when we fuck around cause I'm high, cause I'
m high 4 u
You know I love it when you stick around
But I don't wanna have to break your heart slowly
You know I love it when we fuck around cause I'm high, cause I'
m high 4 u

Tell me how I'm supposed to focus, focus
Swear I used to be broken, broken
You know I wish I didn't have to break your heart
I got my new shwing, I ain't falling apart
I didn't write the script so don't get mad at your part, no
Light going off in my head
Thinking about what you said
Maybe it was all a big test

Oh I've been so distant, call the coastline
I was lost with nobody giving good vibes
You know I never tried to hurt you with the punchline
Lost in the city of angels

You know I love it when you stick around
But I don't wanna have to break your heart slowly
You know I love it when we fuck around cause I'm high, cause I'
m high 4 u
You know I love it when you stick around
But I don't wanna have to break your heart slowly
You know I love it when we fuck around cause I'm high, cause I'
m high 4 u
Lalala, lalalalalalala
Oh, lalala lalalalalala
Oh, lalala lalalalalala
Cause I'm high, yeh I'm high 4 u
