

# I'll Make You Miss Me

Artemas

Of course I, I'm crazy about you  
You thought I was fine without you  
That's an easy lie  
I'll never let you see me cry  
You say you're, you're happy for me  
Replace my happiness for another lonely night  
With you, the pain feels nice

I don't want you proud of me  
I just want you all on me  
That's just how it used to be  
You don't feel it yet but

I'll make you miss me, I'll make you miss me  
For the rest of your life, your life  
And what's left of mine  
I'll make you miss me, I'll make you miss me  
For the rest of your life, your life  
And what's left of mine

Of course, you're, you're crazy about me  
Can tell by the way you always let me in my life  
We tried to say goodbye too many times  
Fuckin' on your friends to get you off my mind  
Even when you're gone, no, I can't compromise  
We danced all night to our favourite song  
Baby, it's alright

I don't want you proud of me  
I just want you all on me  
That's just how it used to be  
You don't feel it yet but

I'll make you miss me, I'll make you miss me  
For the rest of your life, your life  
And what's left of mine  
I'll make you miss me, I'll make you miss me  
For the rest of your life, your life  
And what's left of mine

I don't want you proud of me  
I just want you all on me  
That's just how it used to be  
Exactly how it used to be
