

mess of me, sexually

Artemas

Baby, know exactly how I like it
You know what I've got in this crisis
Go make a mess of me, sexually
Baby, know exactly how I like it
You know what I've got in this crisis
Go make a mess of me, sexually

Run your mouth, run your mouth
Said some things that pissed me off, then shout it out
Don't let me down (Uh), tear me down (Uh)
Always kinda knew that you would let me down
'Cause, girl, you're magic, such a savage
The way you wipe me like I ain't somebody average
The way you cheatin' on your man, gon' do some damage
I should feel bad, I should feel bad, but

Baby, know exactly how I like it
You know what I've got in this crisis
Go make a mess of me, sexually (Oh, fuck me again)
Baby, know exactly how I like it
You know what I've got in this crisis
Go make a mess of me, sexually

Was it dream? Was it nightmare?
Was I hands around your girl? I fucked you right there
And she liked that, I know she likes that
Take a shot and do some blow, I fucked her like that
Carbon angel, fucked her halo
The way I bend you over up against the table
The way you cheatin' on your man, don't have to say, though
I should feel bad, I should feel bad, but

Baby, know exactly how I like it
You know what I've got in this crisis
Go make a mess of me, sexually
Baby, know exactly how I like it
You know what I've got in this crisis
Go make a mess of me, sexually
