Fuck
Put your lips all over me
Girl, you fuck me like a porn star
What's the chance to take me home?
You may find it hard to breathe
It's my world but you can co-star
(Yeah, yeah-yeah-yeah)

Sing me to sleep
Rest your stupid head on me
Stupid 'cause you fell for me
I think that you're the girl of my dreams (Oh)

Oh-oh-oooh
She looked when she was here
Why aren't jealous of the ones I fuck?
Oh-oh-oooh
And that dress, I don't agree
Why don't you take a shot of something strong?

And sing me to sleep
Rest your stupid head on me
Stupid 'cause you fell for me
I think that you're the girl of my dreams (Oh)

It's another lovely night
Trippin' on my different time
