

## time alone w u

Artemas

(All the, all the)

All the things that I would do  
For some time alone with you  
Can't stop looking at your face  
We should make out in your room  
We could go the whole way too  
Swear you always act so rude  
Until we're on our own, time alone  
Time alone with you

I know you want me (Yeah)  
You tell me with that look in your eyes that you still love me (Uh)  
And now I gotta act surprised  
Well, I'm flattered, baby  
You finally feel the same as I  
You didn't have to say a word (Ha-huh)  
'Cause I could just read your mind (Ah-ah)

All the things that I would do  
For some time alone with you  
Can't stop looking at your face  
We should make out in your room  
We could go the whole way too  
Swear you always act so rude  
Until we're on our own, time alone  
Time alone with you

All the things that I would do  
For some time alone with you  
For some time alone, time alone  
Time alone with you

Come a bit closer  
Baby, look at me in my eye  
Lean even closer  
I wanna feel our bodies intertwined  
Love it when your skin's all mine  
You make me wanna take my time, ooh

All the things that I would do  
For some time alone with you  
Can't stop looking at your face  
We should make out in your room  
We could go the whole way too  
Swear you always act so rude  
Until we're on our own, time alone  
Time alone with you

(All the things that I would do) Ooh  
(For some time alone with you) Ooh  
(For some time alone, time alone) Ooh  
(Time alone with you) Ooh

(All the things that I would do)  
(For some time alone with you)  
(For some time alone, time alone) Our own, time alone

(Time alone with you) Time alone with you (Yeah)
