

Trash

Artemas

Couple pills in my system don't it feel nice
Couple kisses on my neck you make me feel like
Skipping school skipping Sundays I don't need Christ
Touch me if it feels right
And in between I'll sit and play my old guitar
You're lazier than Bruno Mars
I'm no one but my beats go hard
I'm no one but my beats go hard

Let's be trash together
Let's lose all our friends
And be alone forever
Is that not what you meant when you said
Let's be loud
Fuck the neighbors we could use a crowd
Take a bow
C'est la vie
You're the best around
Let's be loud
Fuck the neighbors we could use a crowd
Let's be loud
C'est la vie
You're the best around

Couple people that I'll miss but that's about it
You raise your voice but I can't hear you I'm just smiling
I think I love her there's no other way around it
Trust me mate I found it
Hope I never have to go and
Break her heart
Shes scared I'll be a superstar
I'm no one but my beats go hard
I'm no one but my beats go hard

Let's be trash together
Let's lose all our friends
And be alone forever
Is that not what you meant when you said
Let's be trash together
Let's lose all our friends
And be alone forever
Is that not what you meant when you said
Let's be loud
Fuck the neighbors we could use a crowd
Take a bow
C'est la vie
You're the best around
Let's be loud
Fuck the neighbors we could use a crowd
Let's be loud
C'est la vie
You're the best around
