## **Running Out Of Time**

## Artension

Now that my life is changing Something is missing Driving me insane These feelings in my brain

Dark fear...so real Sanity lives so far away from here

Dangerous age, I'm running out of time
The world is in my stage, but I'm running out of,
Running out of time

Somehow the light is fading To unholy darkness Night destroys the day It's so hard to find my way

Dark fear...so real Sanity lives so far away from here

Dangerous age, I'm running out of time
The world is in my stage, but I'm running out of,
Running out of time
