

## Time Goes Slowly By

Artension

Behold this relic, prelude to a vision of the past  
With arms wide open, a tear in my eye  
These visions now I find

There's so much here to see  
It's all starting to make sense to me, there's so much left to  
do

But... Time goes slowly by  
Yes.... Time goes slowly by

Time goes slowly by  
Time goes slowly by you  
Time goes slowly by

Within this circle, behold all the pieces of my life  
With eyes wide open, discover me  
My visions you will find

There's so much here to see  
It's all starting to make sense to me, there's so much left to  
do

But... Time goes slowly by  
Yes.... Time goes slowly by

Behold this relic, prelude to a vision of the past  
With arms wide open, My visions you will find

There's so much here to see  
It's all starting to make sense to me, there's so much left to  
do Chorus:

But... Time goes slowly by  
Yes.... Time goes slowly by

Time goes slowly by  
Time goes slowly by you  
Time goes slowly by

Time goes slowly by  
Time goes slowly by you  
Time goes slowly by
