

Tomorrow's World

Arthemis

I see the world around me
War, drugs and hate then what will be'
I fear the future will be very black

And if the world is like this shit
Is really better not to exist
Something must change or we'll be fucked

Can you hear me God'
We're losing our way
Make tomorrow better than yesterday
I believe in Tomorrow's World
Where war and hate will be really old

And war is going everywhere
And everybody say 'I don't care'
But still I hope a better time

Together we can change this world
That seems so awful and so cold
Tomorrow's World will rise with us

Can you hear me God'
We're losing our way
Make tomorrow better than yesterday
I believe in Tomorrow's World
Where war and hate will be really old

Can we live without pain
In a world full of peace'
In a place where there is no hate
And the sun is shining high

The sun will shine high...
