

Gabriel

Arthur Brown

As it sees my face
The desert wind that blows
I can't release
This heart of clay
But that feelin's real
And I'll always know
What it's like to love
[?] her dismay

As I look at my life
And I work on my pain
Like a worthy guest
At a wedding feast
Will look good in a bag
Just seem to disappear
I [?] I wanted to be
Just seemed to matter the least

Now did the Gabriel of Mary
When Jesus Christ was born
Was she so full of passion
Their senses were torn?
Did she want to own his body?
Will [?] human form?
And throw his wings away?

Did she want him to stay?

Did Gabriel of Mary
When Jesus Christ was born
Was she so full of passion
Their senses were torn?
Did she want to own his body?
Will [?] human form?
And throw his wings away?

Did she want him to stay?
Did she want him to stay?

It's a mixed up world
With a lot of strange
On an angel's wings
We could be far away
But I'll stay right here
On a homeless rain
And I'll build a house, heh
Watch the wild things prey

Did Gabriel of Mary
When Jesus Christ was born
Was she so full of the passion
Their senses were torn?
Did she want to own his body?
Will [?] human form?
And throw his wings away?

Did she want him to stay?

Did she want him to stay?

Did she want him to stay?

She want him to stay?

Did she want him to stay?

It's a mixed up world

Did she want him to stay?

Did she want him to stay?

Oh, it's a mixed up world

Did she want him to stay?

Did she want him to st-

Did she want him-Did she want him

Did she want him to stay?

Uh - It's a mixed up world

Did she want him to stay?

Did she want him to stay?

Did she want him to stay?

Hah-ha-ha!

Did she want him to stay?

Did she want him to stay?

Aah!

Buh-bitchbitchga-doh

Ti-bitchbitchgonna-may

Gonna-may-ski-bitchba-di

Comin' 'round gonna-guh-do

Slow down, I'm thinkin' about baby

Come on, babe, did she want him to stay?

Did she want him (To stay, to stay, to stay)

To stay?

Did she want him? Well she ain't got 'I'm now

And she ain't gonna find 'I'm

Did she want him to stay, stay, stay?
