

Simple Man

Arthur Brown

I'm only a simple man
I've learned a trick or two
As people must do

I've had a little intellectual placement
In a very near corner of my mind

And I'm spending
What seems to be the rest of my life
Trying to get behind to you
There must be a way

So in the darkest night
Let your little light
Keep on shining bright to me

Homeless wanderer in my tent
[?] where I belong
Where I found this song

I've had a little intellectual placement
In a very near corner of my mind
