

Time Captives

Arthur Brown

Now time ship! Atom centuries!

Alpha waves compute before eternity began
Lone protons probing vast galaxies

We seek a void where creation once cried "OM!"

Time captains
We synthesise the rays powering your brain

We are time captains
We synthesise the race power in your brain

We are time captains
We are time captains

Network cosmic mind learn your destiny

We are time captains
We are time captains

We write the astral records of history

We are time captains

Oceans free-fall
Waves interweave
Patterns
Dizzy space
Sound ball
Soft birth
Colours congeal'ectricity

Cosmoscope sparks
Night laughs cool
Flare heartbeat
Serene sun

Ah-ah-ah-ah
Ah-ah-ah-ah
Lah-dah-dah
Lah-dah-dah
