

# Foolish

Arthur Nery

Foolish in your eyes  
But you put your faith on me  
You save me through the night  
I'm in ecstasy, oh oh

I bail, but how could I  
When you had me sedated  
Now all of these premises  
Again dangerous, oh oh

Nonchalance anticipated  
I conversate to keep us naked  
Ooh oh  
Feel my love in all dimensions  
With no drama  
What is love

She said hold up now  
Let me fall  
(Let me fall)  
Let me fall  
Hmm you caught me by surprise, ooh oh

Oh ma, there she goes  
There she goes  
She just know  
Know how to make me  
My favorite pastry

Hmm you saved me from the fire  
(You saved me from fire)  
But you dragged me underwater  
(Underwater)  
Ooh you so bad  
(Ooh you so bad)  
You kiss it better  
So I won't go mad

Ooh  
Nonchalance anticipated  
I conversate to keep us naked  
Feel my love in all dimension  
With no drama  
What is love

Now she said  
Hold up now  
Let me fall  
(Let me let me fall)  
Let me fall  
Hmm you caught me by surprise

Ooh oh  
Oh ma, there she goes  
There she goes  
She just know  
Know how to make me

My favorite pastry
