

Got Me Tangled

Arthur Nery

You got me tangled on your beauty
And all them tales baby, all them memories
Girl, you're my haven, sanctuary
You put my flame on spontaneously

Babe, our love is alive
We could raise our voices at night (hmm)
Blissful we are every time (every time)
You put your heart into mine

We could share a cup of coffee
While we chillin' on my porch, babe
Come and wrap your arms around me
Then I could take you to the floor
You could always make me your blanket, baby
But don't cover your face, ain't no room for insecurities

You got me tangled on your beauty
And all them tales baby, all them memories
Girl, you're my haven, sanctuary
You put my flame on spontaneously

No, I won't pedal back, lose track
Even though I get heart attack
Every time you wet your lips
Babe, you're impeccable, a sensual perfect individual
Turn around sure I won't miss

You got me tangled on your beauty
And all them tales baby, all them memories
Girl, you're my haven, sanctuary
You put my flame on spontaneously

You got me tangled on your beauty
And all them tales baby, all them memories
Girl, you're my haven, sanctuary
You put my flame on spontaneously
Yes you do, yes you do, girl
