

I Wish I Had A Brother

Arthur Russell

I wish I had a brother
And he was here with me
There's lots of things that we could do
We could feel so free

Walking down the highway
We step on all the grass
We don't notice the cars very much
As they go past

Basketball's so easy
We play most every day
My brother he was winning
Sometimes it goes that way

I wish I had a brother
And he was here with me
There's lots of things that we could do
We could feel so free

Getting to the playground
We walked around the fence
It's too high to climb over
My brother's got some sense

I wish I had a brother
And he was here with me
There's lots of things that we could do
We could feel so free
