

# In Thrash We Trust

## Artillery

I got this feeling  
Need to unwind  
Stacked up on problems  
Pain in my mind  
Life leaves me mad  
Need to get out  
All doors are closed  
I scream, yell and shout

I know a place  
Somewhere you'll find  
Where fury lives  
Peace at the same time

In thrash we trust - a belief that is just  
In thrash we trust - you can, you will, you must  
In thrash we trust - a belief that is just  
In thrash we trust - you can, you will, you must

Devil in detail  
Fiend in the mist  
Drive me straight crazy  
Me off your list  
You cannot see me  
Kick it out of you  
Breaking the chains  
Tell me what to do

In thrash we trust - a belief that is just  
In thrash we trust - you can, you will, you must  
In thrash we trust - a belief that is just  
In thrash we trust - you can, you will, you must

Forged in iron  
Forged in blood  
In blood

This is my law  
Rules sets me free  
Beauty in grit  
In the dark to see  
No higher law  
Or punishment  
A hand for you  
Now replenishment

In thrash we trust - a belief that is just  
In thrash we trust - you can, you will, you must  
In thrash we trust - a belief that is just  
In thrash we trust - you can, you will, you must
