

# Mind of No Return

## Artillery

Cold black night and no damn lights,  
my shadow is screaming  
Hard sad saints and bad bad brains,  
the essence of evil

They've taken control - I'm losing my soul  
They're forcing my down - I can't get around

Mad mad days and heavy iron gates,  
I'm alone in the night  
Got no plan like a stray cat,  
I'm sneakin' in the alley

They've taken control - I'm losing my soul  
They're forcing my down - I can't get around

They are coming to take me away  
Forcing my body to stay  
My mind is still far away  
Killing my soul everyday

They are coming to take me away  
Forcing my body to stay  
My mind is still far away  
Killing my soul everyday

Solo: Michael  
Solo: Peter  
Solo: Morten

Watch the slapping, foots clacking,  
my lips are stocking  
Shades examples and color rainbows,  
so what can I do

They've taken control - I'm losing my soul  
They're forcing my down - I can't get around

They are coming to take me away  
Forcing my body to stay

My mind is still far away  
Killing my soul everyday

Got to go, escape this fucking place,  
when the daylight breaks through  
It ain't no life being a bum,  
got to be on the run

They've taken control - I'm losing my soul  
They're forcing my down - I can't get around

They are coming to take me away  
Forcing my body to stay  
My mind is still far away  
Killing my soul everyday
