Artillery

```
Bells you hear from everywhere
Fire is lightening through the air
Fear is driving you insane
Death - your life is in vain
He will tear your mind apart
Rip out your soul and heart
He will flame your eyes
He'll leave you no disguise
```

Bells exploding in your ears Fire is burning up your tears Fear - now for your life you cry Death - you know you're gonna die

Time has come - incompetent you ruled

Time has come - with life and death you fooled

Time has come - a curse fell on your name

Time has come - you've got yourself to blame
