

## Upon My Cross I Crawl

Artillery

In this world of sinners  
I am set to rescue you all  
My name is salvation  
Follow me now and worship my call

In this world of liars  
My name is whispered by those with no faith  
I can be forgiven  
Speak my name, it's never too late  
But i am so tired of love revenge is what i need

Feeling trapped inside my cage  
The tensions boiling i'm filled with rage  
I can never go back to what  
I never was before  
Please forgive me farther hear  
I'm not the image you hold so dear  
Electrified crucified  
Upon my cross i crawl, and die

Agony is rising  
Inside the holyman made from hell  
Symphony of angels  
Tempting me in my lonely cell

To end this new beginning  
I must turn the cross upside down  
Sacrifice is vital  
I throw my crown down to the ground

The lats days are here  
The fallen of the sun  
Caress my soul

I will not believe in you  
In this world of sinners  
I am set to rescue you all  
My name is salvation  
Follow me now and worship my call
