

Warrior Blood

Artillery

"This is the moment I've been waiting for
This is all that fills my life this is my dream
I'm in this corner with my back to the wall
Only me I am alone this is all I want"

Marching into oblivion, no fear only hate
Our god is merciless and iron made
Mankind on it's knees, we provide security
Instead you choose to live on your own misery
Misery

Running into battles totally unknown
This battlefield is our sacred home
It's time to unleash this beast of war
It's time to slay this ungodly whore

That's why I got
Warrior blood
It's in my soul and in my heart

As brothers we stand
Blood on blood hand in hand
Like lions we bite
Back to back side by side

It's in my bones it's in my soul
I will feed my heart with this 'till I get old
From generation to generation to generation...
It's the bloodline you can't kill
