

# Welcome to the Mindfactory

Artillery

Welcome my child - this is your life  
You're got to serve us until the day you die  
Welcome my friend, an illusion of steel  
And don't you ever forget that this for real

Come on my child you know your place  
You'd better make it fast or we'll slap you in your face  
Nobody wants you to do things by yourself  
You'd better make it right or else we'll give you hell  
We'll give you hell

Welcome to the mind factory and you will see  
Life is a fake world of lies all in disguise  
Welcome where the pain never dies  
Welcome welcome welcome to the mind factory

Blindness, confusion, illusions - that's what they want  
Blindness, confusion, illusions - for everyone

Mindless castration, salvation - that's what they need  
Mindless castration, salvation - will make them bleed

So long my child  
Now you're prepared to live a perfect life without a care  
So go on now  
Don't ever lose your pace  
Cause if you do, you'll just get replaced

Welcome to the mind factory and you will see  
Life is a fake world of lies all in disguise  
Welcome where the pain never dies  
Welcome welcome welcome to the mind factory

Welcome to the mind factory and you will see  
Life is a fake world of lies all in disguise  
Welcome where the pain never dies  
Welcome welcome welcome to the mind factory
