

## When the Magic Is Gone

Artillery

From the distance I heard a voice  
Calling my name  
Feeling dizzy I'm caught in the noise  
Am I going insane?

Dusty clouds surround my head  
Is this the devils sign?  
The voice said prepare for your death  
Cause you're the next in line

Can you see it? Can you feel it?  
Something evil has taken control  
It's like a nightmare, it's so unreal  
Am I losing my soul?  
And the magic has gone

Travelling to an unknown place  
What will the future bring?  
Death shows its evil face  
I can hear the Devil sing

Am I alive or dead  
It keeps spinning in my head  
Am I alive or dead?  
I know the time has come  
And the magic is gone
