Ooh-ooh, ooh-ooh

You can see me when I punch your face
Not yesterday, see me now (Break through, brand new here)
Breathing out one more time, we're gonna break it down
Sometimes fear gives me strength (Drives you to unreal place)

Fluttering my second wings (It's already begun)
Keeps making me rise up (Close both my eyes)
Let's fly new world, awoken ego
A mystical déjà-vu

In the heat of it all
I am reborn again
A blooming red fire
Let's get it burn

I find new blood (You can see me when I punch your face)
Let's fire new burn (Get that scarlet blood in me)
I got to burn, burn, burn, flare out more, more, more
Inside me a burning red hot fire

All fire, fire, fire, my fiesta
A red blazin', blazin', blazin' burning heart
I got to burn, burn, burn, spread out more, more, more
Fearlessly burn it away up, fire

You can see me when I punch your face
Change it up, all that you have (Break through, brand new here)
The more you are afraid, you feel alive again
Everything begins to glow

In the heat of it all
I try to light up again
A blooming red fire
Let's get it burn

I find new blood (You can see me when I punch your face)
Let's fire new burn (Get that scarlet blood in me)
I got to burn, burn, burn, flare out more, more, more
Inside me a burning red hot fire

Reborn once again, in the ashes I lie
Goodbye my sweet lost child
The hot flame wakes me up
A blooming red fire
Let's get it burn

I find new blood
I find new blood

I find new blood (You can see me when I punch your face)
Let's fire new burn (Get that scarlet blood in me)
