

Goddess

ARTMS

Light and darkness
Pushing through the borderline
Hypersonic make alive
Catch you in the speed of light

Boom, boom, watch me
Blown into a final breath
Brand new aura manifest

Goddess gonna take it
Goddess gonna choose it
Goddess gonna rule it

Beat, beat it, burning heart
Twist and turn I take you far
Crystal clear my shining eyes
Cutting through your skin on ice

Free your soul
Wanna taste your final breath
Brand new aura manifest

Goddess gonna own it
Goddess gonna change it
Goddess gonna burn it

Pushin' through the veins
Twist and turn into your lane
Spread the wings and manifest
Celestial fantasy

Boom, boom, till I go
Underneath the bloody glow
Shining on my final aura

Goddess gonna burn It

Run, run it, burning heart
Twist and turn I take you far
Crystal clear my shining eyes
Cutting through your skin on ice

Free your soul
Lucid dream electric floor
Brand new aura manifest

Goddess gonna own it
Goddess gonna change it
Goddess gonna burn it
