

Brighter Side

Arty

Waking up in the wave of the darkness
Holding on so I don't float away
Coming back from a crash is the hardest
Can you stay

Ooh ooh
You know how to hear me
Ooh ooh
You know what to say
Always there, always know where my heart is
Can you stay?

Show me light when I'm lost in the shadows
Show me life when I'm scared
Always there, that somebody to show me the brighter side

The brighter side
Know that

So much space in the way when you're not here
Pull me through to the stars, to the place
That we go, can we go? Wanna ask you
Can you stay?

Ooh ooh
You know how to hear me
Ooh ooh
You know what to say
Always there, always know where my heart is
Can you stay?

Show me light when I'm lost in the shadows
Show me life when I'm scared
Always there, that somebody to show me the brighter side

Somebody
Somebody
Somebody
To show me the brighter side
The brighter side

To show me the brighter side

Somebody
Somebody
Somebody
To show me the brighter side

Somebody
Somebody
Somebody
To show me the brighter side
The brighter side

Somebody
Somebody
Somebody

The brighter side
