

Calling

Arty

Can you hear me calling, your name?
Every time you're falling, for love?
Come through, come through
Is that alright, with you, is it alright?
Can you hear me calling?

Come through, come through
Is that alright with you? Is it alright?
Is that alright with you? Is it alright?

Pulling down away the soul
Breaking through the odds
Pulling down away the soul
Breaking through the odds

Can you hear me calling, your name?
Every time you're falling, for love?
Come through, come through
Come through, come through

Is that alright with you? Is it alright?
Is that alright with you? Is it alright?

Come through, come through, come through, come through
Come through, come through, come through, come through
Is that alright with you? Is it alright?
Is that alright with you? Is it alright?
