

Closer To You

Arty

Lost in the dark
I've got no place to hide
Your fire burns in my heart
I'm alive

Every time I let you in I turn to rust
You're dangerous
Feel your shadow haunting me
Along my skin
And in my dreams

Nobody told me, nobody told me
Your love was poison
Nobody told me, nobody told me
I would die to get closer to you

Nobody told me, nobody told me
Your love was poison
Nobody told me, nobody told me
I would die to get closer to you

Nobody told me, nobody told me
Your love was poison
Nobody told me, nobody told me
I would die to get closer to you
