

Daydreams

Arty

You got my back in the darkest hour
You pick me up when it all goes south
You're calling me out, bring me back to earth
And you lift me up, showing me my worth

And I'd do all the same for you
No matter what you're going through

Spending our days in the summer breeze
Running away through the midnight streets
As long as I got you by my side
All of my daydreams come alive
All of my daydreams come alive

All of my daydreams come alive

I'll be your eyes on a cloudy day
When it gets hard, I'll show you the way

And I'd do all the same for you
No matter what you're going through

Spending our days in the summer breeze
Running away through the midnight streets
As long as I got you by my side
All of my daydreams come alive
All of my daydreams come alive

Spending our days in the summer breeze
Running away through the midnight streets
As long as I got you by my side
All of my daydreams come alive
