

Fight For

Arty

We were so bent and broken
We got so lost in our regrets
Tears that could fill an ocean
Fear that could push us off the edge

The dark was one step behind us
This winding road we walked
But we're so close to where the light is
Just hold on
Don't let it go

We found something to fight for
We found something to die for
Hold my hand
This is our last stand

We found something to fight for
This feeling I'd give my life for
Hold my hand
This is our last stand

Never knew what was missing
Never thought we could make it out
We got so caught up in it
But we're not just faces in a crowd

The dark was one step behind us
This winding road we walked
But we're so close to where the light is
Just hold on
Don't let it go

We found something to fight for
We found something to die for
Hold my hand
This is our last stand

We found something to fight for
This feeling I'd give my life for
Hold my hand
This is our last stand

We found something to fight for
This feeling I'd give my life for
Hold my hand
This is our last stand
