

We're on this neon parade
And we are as bright as the day
So let's let go all the way
Shine, you know the world is beautiful

We can find the light, in the midnight glorious
We can break the dawn
Let the motor run
It's only us
'Cuz we're here and now, yeah we're here and now
On the ride of your life
We can find the light, in the midnight glorious

You know the world is beautiful
Shine, you know the world is beautiful
Shine, you know the world is beautiful
Shine, you know the world is beautiful
Shine, you know the world is beautiful
Shine, you know the world is beautiful

We'll let the darkness cascade
Over the moments we made
So let's let go of mistakes
Shine, you know the world is beautiful

We can find the light, in the midnight glorious
We can break the dawn
Let the motor run
It's only us
'Cuz we're here and now, yeah we're here and now
On the ride of your life
We can find the light, in the midnight glorious

Shine, you know the world is beautiful
Shine, you know the world is beautiful
