

Pharaon

Arty

Take me somewhere, somewhere different
Leave me by myself before I change my mind
I'm shapeshifting, until I find what's real again
Shed my skin and set me free

All the colors I see now, they wash away, they wash away
I don't know if I'm dreaming, I don't wanna be, just tell me I
am awake
I am ready to find myself tonight, I am ready, I am ready to ch
ange
What to do, what to do, something careless, I could freefall

I am ready, I am ready to change
Ready to change (I am ready, I am ready)

Watch from afar, see me unravel
Drop the façade, I've never been so bare
I want to fly, I'm so unsettled
Bring me to life, set me free

All the colors I see now, they wash away, they wash away
I don't know if I'm dreaming, I don't wanna be, just tell me I
am awake
I am ready to find myself tonight I am ready, I am ready to cha
nge
What to do, what to do, something careless, I could freefall

(I am ready, I am ready to change) Ready to change
I am ready, I am ready to change
Ready to change
I am ready, I am ready to change (Take me somewhere)
I am ready to change (Take me somewhere)
I am ready, I am ready to change (Ready to change)
