

Poison For Lovers

Arty

For a little while bring me calm
In the dark of the night
And I hurt all the time now
Lift me up in praise

Even in the dark of the waking seas
All I wanna do is go down in the sea of faith
If you love me that time

I'll break it down
Can you do it to me, to me
Poison for lovers
Do it to me, to me
Poison for lovers
Out in the dark you let me down
Come on bring me down
Come on poison for lovers
Out in the dark we let it out
Come on bring me down

Even in the dark of the waking seas
All I wanna do is go down in the sea of faith
If you love me that time
Even in the dark of the waking seas
All I wanna do is go down in the sea of faith
If you love me that time
