

Found you there from a year ago
Words I lost, ones you need to know
We'll last this together

Found you there from a year ago
Words I lost, ones you need to know
We'll last this together

Together
Together
I thought you said forever?
Did I make you think there's a way together?
You went and said it to me

I thought you said forever?
I thought you said forever?
I thought you said forever?
I thought you said forever?
I thought you said forever?
I thought you said forever?

Together
Together
You went and said it to me

Did I make you think there's a way together? (I thought you said forever?)
Did I make you think there's a way?
You went and said it to me
Did I make you think there's a way together? (I thought you said forever?)
Did I make you think there's a way?
You went and said it to me

Did I make you think there's a way together? (I thought you said forever?)
Did I make you think there's a way?
You went and said it to me

I thought you said forever?
I thought you said forever?
I thought you said forever?
You went and said it to me

Found you there from a year ago
Words I lost, ones you need to know
We'll last this together
