

# Take Your Time

Arty

Sayin' all the right things in all the wrong moments  
Feelin' all the right things, but don't know how to show it  
The stars align  
When it's just right  
So we can take the long road  
Just don't know where it's going

And even if it's not right now  
Someday we're gonna work this out  
So take your time  
I'll wait it out

And even if we don't know when  
Someday we'll make it work somehow  
So take your time  
I'll wait it out  
Wait it out  
Wait it out

Walking on a tight rope  
We keep losing our balance  
Even with our eyes closed  
We both know what's gonna happen  
There'll be a sign  
When it's just right

And even if it's not right now  
Someday we're gonna work this out  
So take your time  
I'll wait it out, wait it out

And even if we don't know when  
Someday will make it work somehow  
So take your time  
I'll wait it out  
Wait it out  
Wait it out

Wait it out  
I'll wait it out

So take your time  
I'll wait it out  
Wait it out  
Wait it out
