

Those Eyes

Arty

Where have you been?
Why did you go back so soon?
You say we had more time
When I looked in those eyes

Where have you gone?
When you tell me you're so far
You say we had more time
When I looked in those eyes

So tell me, so tell me
Will we both lose our minds?
So tell me, so tell me
Will we both lose our minds?

Take me with your body right now
I would to love see you rolling
Take me with your body right now
I would to love see you rolling

Take me with your body right now
I would to love see you rolling, rolling
Take me with your body right now
I would to love see you rolling, rolling

Where have we been?
Why did we come back so soon?
I thought we had more time
When I looked in those eyes

Where did we go?
When we were so far from home
You say we had more time
When I looked in those eyes

So tell me, so tell me
Will we both lose our minds?
So tell me, so tell me
Will we both lose our minds?

Take me with your body right now
I would to love see you rolling
Take me with your body right now
I would to love see you rolling

Take me with your body right now
I would to love see you rolling, rolling
Take me with your body right now
I would to love see you rolling, rolling

Where have you been?
Why did you go back so soon?
You say we had more time
When I looked in those eyes

Where have you gone?
When you tell me you're so far

You say we had more time
When I looked in those eyes

So tell me, so tell me
Will we both lose our minds?
So tell me, so tell me
Will we both lose our minds?

Take me with your body right now
I would to love see you rolling
Take me with your body right now
I would to love see you rolling

Take me with your body right now
I would to love see you rolling, rolling
Take me with your body right now
I would to love see you rolling, rolling
