

You're Not Alone

Arty

You can smile under the sun
But are you having any fun
Afraid you might never become
Just as good as everyone
Every feeling will get old
You know that's how it's supposed to go
And all you wanna do is run
But do you know what you're running from

When it hurts too much
And you've had enough
Ooh
Carry on
When the sky turns dark
Don't know who you are
Ooh
Carry on

When life takes a turn
And you're down in the dirt
Just open your eyes
Yeah it could be worse
When it hurts too much
And you've had enough
Ooh
Carry on

Ooh
Carry on

When the thrill of it is gone
And you're afraid of movin' on
Remember where you're comin' from
And all the battles that you've won
Every feeling will get old
You know that's how it's supposed to go
And all you wanna do is run
But do you know what you're running from

When it hurts too much
And you've had enough
Ooh
Carry on
When the sky turns dark
Don't know who you are
Ooh
Carry on

When life takes a turn
And you're down in the dirt
Just open your eyes
Yeah it could be worse
When it hurts too much
And you've had enough
Ooh
Carry on

You're not alone
Ooh
Ooh
You're not alone
Ooh
Ooh

When the sky turns dark
Don't know who you are

You're not alone
Ooh
Ooh
You're not alone
Ooh
Ooh
