

This is earth radio
Hm, human music?
I like it

21 years in the makin'
Pray to lord, my soul for the takin'
Dear God my soul needs some savin'
Seems like everybody here fakin'
Doin' my best, tryna work it
Fuck all my haters, they ain't worth shit
Told my mama I'ma make it
You want something, you gotta take it

The smile on my face is jaded
Yeah, I'll talk about gettin' faded
I'm on my grind I'ma make it
Don't need a bitch to feel okay, yeah
The reason I stay and keep doing
My fans and my love for the music
Love what you got, you gonna lose it
Knocked down, you gotta keep on movin'

Show me what you got, oh no
Show me what you got, oh no
Show me what you got, oh no
Show me what you got, oh no
We aren't the same as before
We changin' so much and we grown
Show me what you got, oh no
Show me what you got, oh no

My mindstate, yeah, it gotta elevate
No more pills, I just meditate
Fight my battles, yeah, day by day
I'm a champion, I'm like the heavyweight
Got a bad bitch, she a baddie
She ain't my daughter, but she call me daddy
Rollin' up woods, that's a fattie
Bitches want me, can't have me
Now you all up in your feelings
Spend your whole life searchin' for a meanin'
Here for nothin', not for a reason
Can't spend your whole life dreamin'
Can't miss a chance don't take
What's a day in a life without pain
I swear one day you gonna make it
But sometimes you need a little rain

Show me what you got, oh no
Show me what you got, oh no
Show me what you got, oh no
Show me what you got, oh no
We aren't the same as before
We changin' so much and we grown
Show me what you got, oh no
Show me what you got, oh no
